# MIRACLOUD®

## GO BEYOND™ THE CONVENTIONAL CLOUD

### ONE PLATFORM, MULTIPLE CLASSES, INFINITE POSSIBILITIES

Contegix MiraCloud is built to address multiple needs while delivering consistent performance, easy migration, superior management and a technical support guarantee.

With our **GO BEYOND** approach to the cloud, we provide customers the flexibility to choose their class of **service** and **hypervisor**.

### THREE CLASSES OF MIRACLOUD HOSTING SERVICE

▶ **CONVENIENCE CLASS CLOUD**

A low-cost solution with self-managed control, persistent server grade storage, and a KVM hypervisor

from **\$7.48/month**  
and **1¢/hour\***

▶ **BUSINESS CLASS CLOUD**

Upgraded storage performance, instance high availability, the XenServer hypervisor and increased resiliency

from **\$12.59/month**  
and **2¢/hour\***

▶ **ENTERPRISE CLASS CLOUD**

The highest level of resiliency, the fastest resources, and the power of the VMware™ hypervisor

from **\$21.84/month**  
and **3¢/hour\***

\*Monthly pricing includes 10GB of primary storage and 200GB of bandwidth. Hourly pricing does not include storage.

### UNIQUE BENEFITS THAT ONLY MIRACLOUD CAN DELIVER

- ▶ Upgrade your class at any time or assemble your own MiraCloud solution using instances from each class.
- ▶ You have the freedom to choose Public or Private instances of MiraCloud and deploy them to managed or unmanaged servers.
- ▶ We're the only company that provides customers a complete path from unmanaged to fully managed cloud hosting.

### MIRACLOUD - 2 MONTH FREE TRIAL!

See for yourself why Contegix MiraCloud® is the most flexible and reliable cloud solution available with this 2-month, free trial offer! To redeem, visit [www.MiraCloud.com/Strangeloop](http://www.MiraCloud.com/Strangeloop) and enter the code STRANGELOOP2012. Offer expires Oct 25, 2012.

## THE FIRST OF ITS KIND

Contegix's MiraCloud is the first cloud service that gives customers the ability to choose elements from each of several cloud solutions. From self-service to a private enterprise cloud, you can create a hybrid solution to meet your needs.
